Stop Sandmining at Waipu Cove, Ruakākā and Langs Beach

McCallum Bros have been included in the Fast Track Consenting Bill, with a new proposal to mine Bream Bay for the next 35 years.

These areas are home to fragile sand dunes and endangered species like the tara iti (NZ fairy tern). We cannot allow any more destructive mining of our coasts. Sign the petition today to stop McCallum Bros from mining our beaches and protect these vital coastal environments for future generations.
